

TERRIBLE ACCIDENT

SCUTTLEBUTT

--Chuck Wilson

Looks as if Bob and Bobby are back together again. It must have been caused by the lovely cozy atmosphere at the party for Dotty Saturday night.

Say, who was that tall, dark, eye-glassed lover who sat next to Spitz in the movie the other night? He had some effect on her as she is still swooning.

Stuart, why don't you stop driving; you know you get picked up for having a driver's license. Be more like S.A., B.M., J.B., G.A., D.M.; do it without a license.

Sophs gave a surprise party for Sally last Friday night at the Yacht Club. Mr. and Mrs. L. L. Morris chaperoned but it seemed another member of Lago Colony insisted on being chaperone too, and sat at the head of the stairs all night.

Mr. Watcher is getting old I guess; he sits with two beautiful girls at the movies and reads a book.

The pictures of the Pan-O-Ram staff have been taken but mine is missing. (No pull I guess)

Only fourteen re-takes were required in the Photo Club project on the annual pictures. Mr. Krebs deserves the credit for excellent organization and instruction.

WEEPING WILLOW

Dear W. W.

I have a crush on a certain pair of twins in the Junior class. How can I decide which one I like when I can't even tell them apart?

Frantically,
A Freshie

Dear Freshie,

Don't bother trying to tell them apart it makes it more interesting that way.

Yours,
W. W.

LOST AND FOUND (inquire at office)

Found:

4 pens; 5 automatic pencils; 1 gold-plate bracelet; billfold; button.

DAMAGE STILL UNESTIMATED!

The breakage is terrific, and a damage estimate still has not been compiled. Ralph Stahre, the nearest surviving relation, is too dazed for a personal interview as this issue goes to press. However, little sympathy is extended to him by the students of L. H. S. because-----he dropped (and broke) his one and only, his trusty. . . pencil.

JUNIOR HI JINX

Betty Mello has taken for her motto, "If at first you don't succeed, try, try again." (Poor Stanley)

The seventh graders, not to be outdone by the honorable eighth graders, have begun to play the game, commonly called--Going Steady. At present, their best players are:

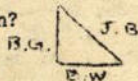

Ginny Hussy and Robert Hodges (or vice versa) Martha Sue Lloyd and Danny Jones. Betty Mello (hopefully) and Stanley Norcom (an honorable eighth grader)

Bobby B., which is it going to be, Nancy or Nancy?

What's the matter with you eighty grade boys? Do the girls have to do all the flirting?

A certain eighth grade girl has a crush on a certain eighth grade boy. Now the question is, who is the girl that the eighth grade boy, has a crush on?

What is the solution?

In the other game the Blue Sox defeated the (Ex) Paper Boys in a hot nine inning game. The score was tied until the eighth inning, but Bob Gladman started a one run spree. Then five runs came in right after another. The final score was 19-14.

GOLF LESSONS

--P. Mingus

PARTY BEGINS AT 7:30

--K. Hussey

Girls have gone all out for golf lessons, this year. Of course, there are boys, but the girls are in the majority. Even some of the teachers have gone out for this extremely exhilarating and exasperating game. Even after having only two lessons, a person can see why people like Bill and Bob Burbage, Bill Hellwig, Joe Carroll, Teddie Gibbons, and Al Leak are out on the golf course, rain or shine, every holiday.

Before I began to take lessons I could not for the life of me, see how anyone would want to or like to hit a ridiculously small ball with some clubs all over the course. But now I understand why people, in a big contest, could commit suicide over one measley putt,

I really begin to feel professional when I can flash such jargon as "bogey", "eagle", "birdie", "par", "I flonked this putt", or "I pulled that putt".

REMINISCING

--J. Hoffman

October 25, 1946--Bill Morgan's team beat Mr. Spitzer's 8-7 (Baseball)

November 8, 1946--A whiter docked here and was inspected thoroughly. John Stuart won a prize at the Hallo'ween dance as a bathing beauty. Dick Rafloski took Pat Richey to the show.

November 15, 1946--Nancy Morris and Jay Cahill were getting on-on-on. Mary B. and Jack Horrigan, too.

November 22, 1946--We were kicked out of the club again!

January 3, 1947--Nancy Morris gave up Jay for Milton.

October 17, 1947--Mr. Hoffman started a "Marry Now Bureau". The orders are rolling in! (Con'd on page 3)

Hey! You with the bored and blasé air, take that mask off and sit up and look alive. We assure you won't feel lonesomely blue this Saturday night (it's May 13) if you go to the Soph Soirée. (Fifty million Frenchmen testify that this is pronounced "swaray" and means an evening party, grade A.) The time's 7:30 P. M. and the clothes are informal.

The super superior Sophs (to Freshmen only, of course) have been desperately trying to keep all operations secret and produce a really bright affair. The publicity committee headed by Katie Hussey has been trying to work up some really bubbling enthusiasm. The decoration committee, Mary B. Spitzer presiding, has been conspiring the unknown and the ideas exchanged are guaranteed to be surprising.

The entertainment committee whose co-chairmen are Don Cahill and Bob Tricarico, has been seen smirking evilly in dark corners. This has led us to suspect that "something" is going to happen. We're assured by Dick Green that the music committee has come across with some good and even new records. We're relieved, as this is a dance.

At 9:30 the food committee headed by Jane Hoffman will be on hand to dish everything out. Bob Norcom is head master and general manager of all these impressive and extensive preparations.

For fun and the answer to all mysterious hints and rumors be at the School Auditorium at 7:30 P. M. tomorrow. All will be revealed.
